

## **PADI Discover Scuba Diving**

### **Participant Statement**

**Please read the following paragraphs carefully and fill in all blanks before signing.**

This statement, which includes a Medical Questionnaire, Discover Scuba Diving Safe Practices Statement and a Statement of Risks and Liability, informs you of some potential risks involved in scuba diving and of the conduct required of you during the PADI Discover Scuba Diving programme. Your signature is required to participate in the programme. If you are a minor, you must have the Participant Statement (which includes and acknowledges the Medical Questionnaire, the Discover Scuba Diving Safe Practices and the Statement of Risks and Liability) signed by your parent or guardian.

You will also need to learn from the instructor the important safety rules regarding breathing and equalisation while scuba diving. Improper use of scuba equipment can result in serious injury or death. You must be thoroughly instructed in its use under the direct supervision of a qualified instructor to use it safely.

### **PADI Medical Questionnaire**

Scuba diving is an exciting and demanding activity. To scuba dive safely, you must not be extremely overweight or out of condition. Diving can be strenuous under certain conditions. Your respiratory and circulatory systems must be in good health. All body air spaces must be normal and healthy. A person with heart trouble, a current cold or congestion, epilepsy, asthma, a severe medical problem, or who is under the influence of alcohol or drugs, should not dive. If taking medication, consult your doctor before participating in this programme.

The purpose of this medical history questionnaire is to find out if you should be examined by a doctor before participating in recreational scuba diving. A positive response to a question does not necessarily disqualify you from diving. A positive response means that there is a pre-existing condition that may affect your safety while diving and you must seek the advice of a physician.

Please answer the following questions on your past and present medical history with a YES or NO. If you are not sure, answer YES. If any of these items apply to you, we must request that you consult with a physician prior to participating in scuba diving. Your instructor will supply you with a PADI Medical Statement and Guidelines for Recreational Scuba Diver's Physical Examination to take to a physician.
